AHMED TAREK

Web Developer

Menoufia, Egypt| 01276174610 | a7mdtarek52@gmail.com

CAREER SUMMARY:

Hi, I'm ahmed tarek, a Front-End web developer, experienced in creating responsive web applications UI with a passion for problem-solving and clean code. My primary expertise lies in JavaScript and the React, as well as Object Oriented Programming.

WORK EXPERIENCE:

EVARA GROUP

Data Analyst | February, 2024 - Present
- Coordinated the preparation and submission of employee CVs for tenders using company templates, collaborating with a team of 3 engineers.
- Demonstrated proficiency in task delegation, ensuring effective division of responsibilities among team members.
- Maintained adherence to project schedules and deadlines, consistently delivering projects on time.
- Created and managed a comprehensive table containing customer and employee data, uploading it to a hosting platform for convenient access during new projects in the Kingdom of Saudi Arabia.

AINOUR-PIPE

Accountant | July, 2021 - May, 2023
- Managed accounting functions including financial transactions, import-export activities, and client communication regarding balances.
- Conducted daily inventory checks to mitigate financial deficits and ensured weekly debt confirmation with clients.
- Oversaw the recording of employee attendance, deductions for advances and vacations, and disbursed salaries.
- Utilized both paper and computer-based systems, particularly Excel, for accurate transaction recording and analysis.
